

Holds Six 2.5-Liter Bottles, 1 Door, Manual Close, Corrosives/Acids Plastic Safety Cabinet, Countertop, White - 24004

Product Images

Short Description

- Holds Six 2.5 Liter Bottles
- Sturdy, smooth construction in an attractive design
- Suitable for highly aggressive liquids—no metal parts to corrode
- Three-point door latch on larger units offer secure closure
- Toe kick on undercounter model allows user to stand closer to counter—less leaning, better ergonomics

Description

Research environments using many different types of chemicals have special storage requirements. Whether using acids, bases or solvents, it is critical that incompatible liquids are segregated to avoid disastrous explosions or fire. The SDS (Safety Data Sheet) should be reviewed to determine chemical characteristics and recommended storage practices.

Solid polyethylene white acid cabinets have excellent chemical resistance to handle the most corrosive chemicals. A protective, all-welded bottom sump and a clean, sleek design complement any laboratory settings. Fully welded, liquid-tight 2" (51-mm) sump contains accidental spills and makes clean up a snap. Door accepts a padlock for security.

Specifications

Model No	24004
UPC	697841134966
International Model No.	24004
Color	white
Material Specifications	Polyethylene
Liter Capacity	Six 2½-Liter Bottles
Number of Doors	1
Door Type	Manual
Dimensions, Exterior	22" H x 17" W x 17" D
	559mm H x 432mm W x 432mm D
Dimensions, Interior	21.5" H x 16.5" W x 16.3" D
	546mm H x 419mm W x 413mm D
Height (Inches)	22
Width (Inches)	17
Depth	17
Net Weight, lbs	26.0
Net Weight, kg	11.8
