

4 Drum Square Spill Pallet Ramp, EcoPolyBlend™, Recycled Polyethylene, Black - 28688

Product Images

Short Description

- Simplify the process of loading and unloading heavy drums on square spill pallets
- EcoPolyBlend™ Black is 100% recycled polyethylene

- Load bearing capacity of 1000 lb (454 kg)
- Service temperature range of -30°F to 120°F (-39°C to 49°C)
- Recycled content saves on oil, electricity, and landfill space

Description

The Justrite Ramp for 4-Drum Square EcoPolyBlend Spill Control Pallets (black - model 28688) clips securely onto pallets, offering convenience when loading and unloading heavy drums.

Each ramp measures 10.25 in H x 49 in W x 33 in D x 33 in L (260 mm H x 1245 mm W x 838 mm L) and has a safe allowable uniform distributed load of 1000 lb (454 kg) based on a service temperature range of -30°F to 120°F (-39°C to 49°C). For everyday material handling, this pallet ramp makes positioning drums easy. It helps make drum storage portable to better control spills and reduce mishaps, allowing for safer storage anywhere drums are needed to be held.

Use with models 28635, 28634, 28637, and 28636.

Why do you need it?

Using spill control pallets is important to mitigate leakage and spillage from drums — but if you are unable to easily load drums on the pallets, it can result in additional spills. Justrite ramps allow for easy access to move drums on and off pallets without risking spills from loading or unloading contents. Aside from the convenience and added safety they provide, these eco-friendly ramps are made from 100% recycled polyethylene. This makes them an ideal addition to not only improve health and safety needs, but also your environmental impact.

Ramps improve safety by decreasing minor worker injuries, especially those involving toes. They make it easier to move drums from low levels that people often opt to move by hand, ultimately resulting in sloshing spills or tipped drums. Easing the level of difficulty lowers the risk involved with moving drums filled with hazardous liquids.

Specifications

Model No	28688
UPC	697841059795
International Model No.	28688
Color	Black
Material Specifications	Recycled Polyethylene
UL Environmental Approval	Yes
Percent Recycled	100
Load Bearing Capacity, lbs	1000
Load Bearing Capacity, kg	454
Dimensions, Exterior	10.25" H x 49" W x 33" D x 33" L
	260mm H x 1245mm W x 838mm D x 838mm L
Net Weight, lbs	40.0
Net Weight, kg	18.1
