

AE 320

Safety horizontal webbing

EN 795/, CEN/TS 16415

Adjustable horizontal anchoring line (horizontal fall protection line). The device is delivered with two AZ 060 steel connectors and a cargo bag. To be used for works requiring frequent horizontal mobility.

The AE 320 device is compliant with the EN 795 type B norm (mobile equipment anchoring points). The AE 320 device is intended for simultaneous protection of 3 people.

In order to fasten the AE320 to anchoring points, it is possible to use snap hooks with a min. strength of 25kN.
