

PRODUCT OVERVIEW

Backed by our 3 year guarantee

Designed to give you the flexibility of using a poly spill pallet outdoors without the sump filling with rainwater this 4 drum spill pallet comes complete with a self-assembly steel frame and polyethylene cover. The opening flap of the cover has ties to hold it in place when "rolled" open and makes use of a "hard" polyethylene roof. The roof helps prevent the bowing of the PVC cover as well as providing a longer life through general use. The sump complies with all the UK regulations relating to sump capacities.

You will require an appropriate size/capacity fork lift truck to offload this item from the delivery vehicle. Our standard delivery doesn't include any offloading.

-  100% polyethylene for chemical compatability
-  Removable plastic grid for easy clean-up
-  UV Stabilised
