

Product Description

- * Designed to meet OSHA and NFPA 30 standards, flammable cabinet is constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel with 1-1/2-in (38-mm) of insulating air space for fire resistance.
- * High-performance, self-latching doors close easily and securely for maximum protection under fire conditions.
- * Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time.
- * For added security, Solid-K™ handle comes with a cylinder lock and key set or accepts an optional padlock.
- * Ref-L™ reflective warning labels are highly visible under fire conditions or during power outages when illuminated with a flashlight.
- * Galvanized steel shelves direct spills to back and bottom of a leakproof sump. They adjust on 2.36-in (60-mm) centers for versatile storage. Cabinets also feature a leakproof 2-in (51-mm) bottom sump, dual vents with flame arresters, four adjustable self-leveling feet, grounding connector and trilingual warning label.
- * Durable lead-free epoxy/polyester powder-coat finish provides excellent chemical resistance.
